[Engineering Center Name]

Technical Discovery Addendum – Structural

ENG-FORM-02S – Template v0.1-draft

Purpose of This Document

This addendum collects the structural-engineering detail that the Pre-Project Intake and Discovery Form (Document 1) does not ask for. Fill it out only if structural assistance was indicated on that form. Its purpose is to give the center's structural engineers enough detail about the structure, its condition, and known loading to scope the work accurately. It is fine to mark an item Unknown – the center will help fill in technical gaps during discussion.

Contents

Document Control 3

Linked Intake Record 3

Structure Description and Condition 3

Loads 3

Site and Geotechnical Considerations 3

Applicable Standards 4

Site and Access Constraints 4

Assumptions and Open Questions 4

Acknowledgement 4

Document Control

Complete this block when the form is issued and update it each time the record is revised. The Intake Reference Number is independent of any project charge code and stays the same across every later document for this request.

Intake Reference No.:	Status:	Template Version:
Current Revision:	**Revision Date:**	**Prepared By:**

Revision history – add a row each time the record changes after initial completion.

Rev.	Author	Date	Change Summary

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Linked Intake Record

Carry the Intake Reference Number forward unchanged from the Pre-Project Intake and Discovery Form for this request.

Intake Reference No. (from Document 1):

Structure Description and Condition

Structure type, age, and general description:

Known condition issues (deterioration, prior damage, modifications):

Loads

Known or estimated dead, live, wind, snow, or seismic loads:

Existing structural drawings or calculations available:

Site and Geotechnical Considerations

Known soil/foundation conditions or geotechnical reports:

Applicable Standards

List any structural codes or standards already known to apply (e.g. IBC, ASCE 7). Leave Confirmed By / Status blank if not yet reviewed by a discipline lead – this records applicability, not compliance.

Standard / Code	Discipline	Confirmed By	Status

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Site and Access Constraints

Site access, occupancy, or safety constraints specific to this structure:

Assumptions and Open Questions

Open Item	Owner	Target Date

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Acknowledgement

This addendum supplements the Pre-Project Intake and Discovery Form and reflects current understanding only. It does not commit [Engineering Center Name]'s resources and is not authorization to begin engineering work or to charge project time.
