[Engineering Center Name]

Constraints, Risks, and Compliance Checklist

ENG-FORM-05 – Template v0.1-draft

Purpose of This Document

This checklist records the schedule constraints, applicable codes and standards, safety and environmental constraints, data-handling restrictions, and known risks that could affect this work. Its purpose is to surface these things early, while they are still easy to plan around, rather than discovering them after work has started. Recording an applicable standard here means it has been identified as relevant – it does not mean the work has been certified as compliant with it. That determination is made separately by the appropriate discipline lead or compliance authority.

Contents

Document Control 3

Linked Intake Record 3

Requesting Organization and Contacts 3

Schedule Constraints 3

Applicable Codes and Standards 3

Safety Constraints 4

Environmental Constraints 4

Data and Information-Handling Restrictions 4

Risk Register 4

Specialist Reviews Needed 4

Assumptions and Open Questions 5

Acknowledgement 5

Document Control

Complete this block when the form is issued and update it each time the record is revised. The Intake Reference Number is independent of any project charge code and stays the same across every later document for this request.

Intake Reference No.:	Status:	Template Version:
Current Revision:	**Revision Date:**	**Prepared By:**

Revision history – add a row each time the record changes after initial completion.

Rev.	Author	Date	Change Summary

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Linked Intake Record

Carry the Intake Reference Number forward unchanged from the Pre-Project Intake and Discovery Form for this request.

Intake Reference No. (from Document 1):

Requesting Organization and Contacts

Requesting Department / Program:

Sponsor:	Sponsor Email / Phone:
Technical Contact:	**Technical Contact Email / Phone:**

List any additional people who can decide requirements or approve scope changes.

Additional Contact:	Role:
Additional Contact:	**Role:**

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Schedule Constraints

Known outage windows, access windows, blackout periods, or other scheduling constraints:

Applicable Codes and Standards

List applicable codes/standards across all disciplines involved. This records applicability and who confirmed it, not a compliance certification.

Standard / Code	Discipline	Confirmed By	Status

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Safety Constraints

Known safety constraints, required PPE, permits-to-work, or safety reviews:

Environmental Constraints

Known environmental constraints, permits, or site-condition limitations:

Data and Information-Handling Restrictions

Known data classification, export-control, or information-handling restrictions that apply to this work:

Risk Register

List known risks to the schedule, scope, or safety of this work, however early-stage.

Risk	Likelihood	Impact	Owner	Mitigation / Notes

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Specialist Reviews Needed

List any reviews by a specialist, safety officer, or other authority that this work is known to require.

Review Type	Reviewer / Organization	Status	Date

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Assumptions and Open Questions

Open Item	Owner	Target Date

If more rows are needed, attach a continuation sheet listing the same columns and reference it here by name.

Acknowledgement

This checklist records known constraints, applicable standards, and risks at the time of signing. It does not certify compliance with any listed standard, does not commit [Engineering Center Name]'s resources, and is not authorization to begin engineering work or to charge project time.
